

Major KYLLA PATTERSON

Role: Royal Australian Army Medical Corps)
Role: Project Manager,
Australian Defence Force

Final Student Year:
1994

“Aim to leave the planet the same or better than you found it.”

Studied a Bachelor of Pharmacy (honours) at Nottingham University. Completed pharmacy registration and worked as a community pharmacist before emigrating to Australia in 2002. Joined the Australian Army in 2006 enjoying engagements in PNG and Australia, whilst completing a Masters in International Studies and a Masters in Business. Deployed on operations in the UAE, Kuwait, Iraq and the Netherlands. Completed subunit command then technical staff college (Masters in Capability) to specialise in Defence projects.

My experience at Cyfarthfa High School: “Cyfarthfa High School made me realise opportunities that I could not see for myself. The teachers instilled pride for both Cyfarthfa and Merthyr Tydfil. I still tell stories of going to school in a Castle and the importance of women's suffrage - forever thankful to Martyr Tydfil.”
